Dear Victoria Clarke

RE: University of Dundee recognition of International Arab Bacalaureate

I am pleased to confirm that the University of Dundee recognises the International Arab Bacalaureate, which meets the academic level required for first year entry onto our bachelor's degree programmes within the School of Life Science and School of Science & Engineering.

Students will be required to achieve a minimum score of 80% overall and 85% in specific subjects as per each individual course requirement.

In addition, students will be required to meet our English language requirements as per the list of acceptable qualifications and scores published on the university website.

Kindest regards

*N Andrews*

Nick Andrews
